Palestine - Gaza

## About Me

My name is Basil Al Tanani, I work as a vue frontend developer. I have more than one year of experience in the field, and I have a decent business that includes most websites.

## Experience

### Web Full Stack Course 2022

In the course, I learned the basics of the web, first in html, css and js, then I learned frame work vue js, and then I learned back and laravel.

### Hexa 2022

I have been trained to build frontend web projects and develop research skills and develop a method of dealing with new things in the world of programming with ease.

### viavii company 2022 - 2023

I work for Viavii company with a job title Vue Js Frontend. I developed myself in the field very quickly. I became proficient in work faster and more flexible. I developed myself in javascript and bootstrap, and I dealt with libraries very easily.

## Education

2017 - 2020

University College  
of Applied Sciences

I studied software and databases for two years and took many courses in Android, the web and databases.
